

BEST of BUDAPEST & HUNGARY

THE MEASURE OF QUALITY

• • •

THE MEASURE OF QUALITY

Customers, guests, visitors – they are the most important people for any kind of business. Their opinion is the most valuable. That's why Budapest Week Publishing asks its readers and business partners every year to express their own opinion and name their favorite service providers in the domestic catering, hotel and other service sectors.

Time has come for you to choose the Best for 2023!

The open vote starts on 7 February 2024 and ends in 30 days! Anyone can cast their vote, even in all categories and for multiple establishments. Please bear in mind that those you vote for have to provide high quality and consistent level of service. In other words you would highly recommend this establishment to your family, friends and business partners! This way you can't be wrong and you can help us to choose who will receive the Best of Budapest & Hungary awards for the year 2023!

Please send your votes till 7 March 2024!

We will provide the award-winning service providers with a certificate that they can hang on the wall of their venue, as well as a self-adhesive logo that can be placed on glass so that customers may see the classification from far away. We have found over the years that these awards instill a sense of pride in the owners as well as their staff. They proudly display the plaque they receive in their premises. If you happen to meet them, please congratulate them.
